The BBORR is more of a technical driver's challenge than a straight road course like the Nevada races. There are 59 turns in the last 50 miles leading to Sanderson. They are composed of many elevation changes and are made up of all the types of turns to be found on any road course, anywhere. These turns make it a real challenge to meet your average class speed - in any Division. Please keep this in mind when you decide on your entry Division and Class.
